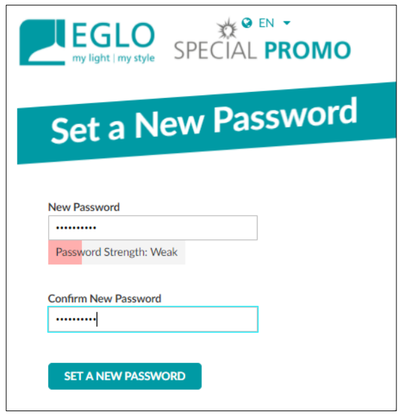
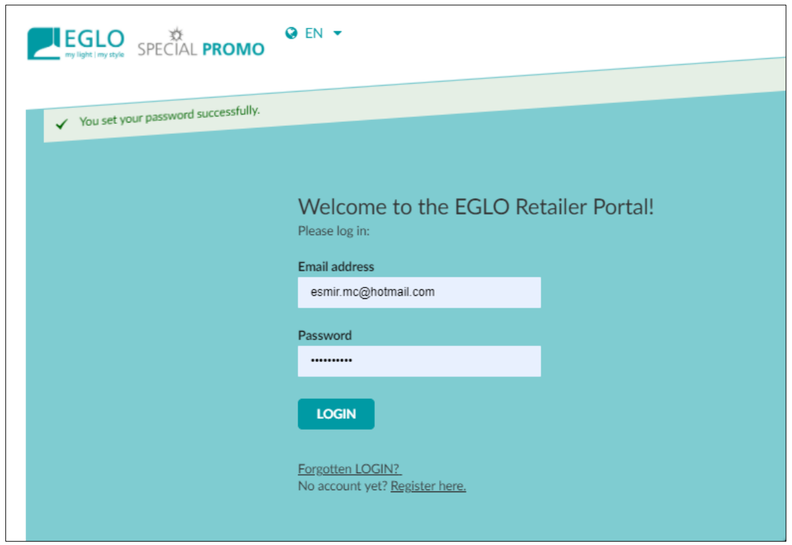
Please click on the link to set your password.

5.



Please set your password.

6.



Afterwards you will be forwarded to the log in screen.

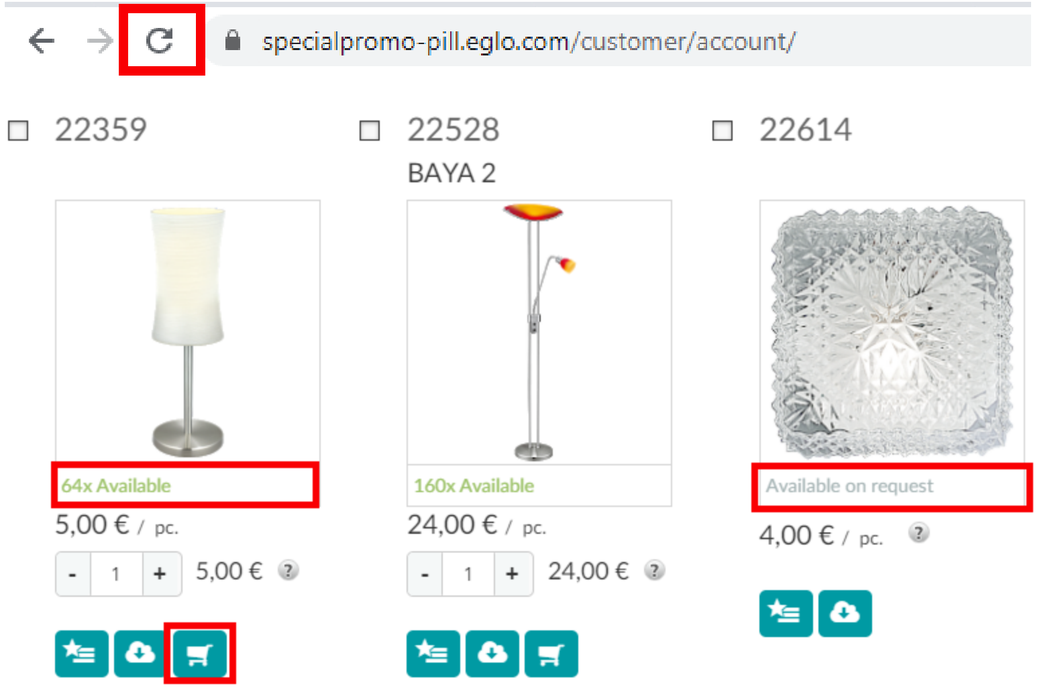
Shopping Function (1)

Product Overview Pages

In this view you will see all products in the selected category.

Article Number, Series Name, Price and Availability.
You can select the quantity and add the product shopping-cart by clicking on the cart symbol.

Please **refresh** the site to see the **current available quantity**.
If a product is sold out or reserved by another customer, it will be labeled as “Available on Request”.

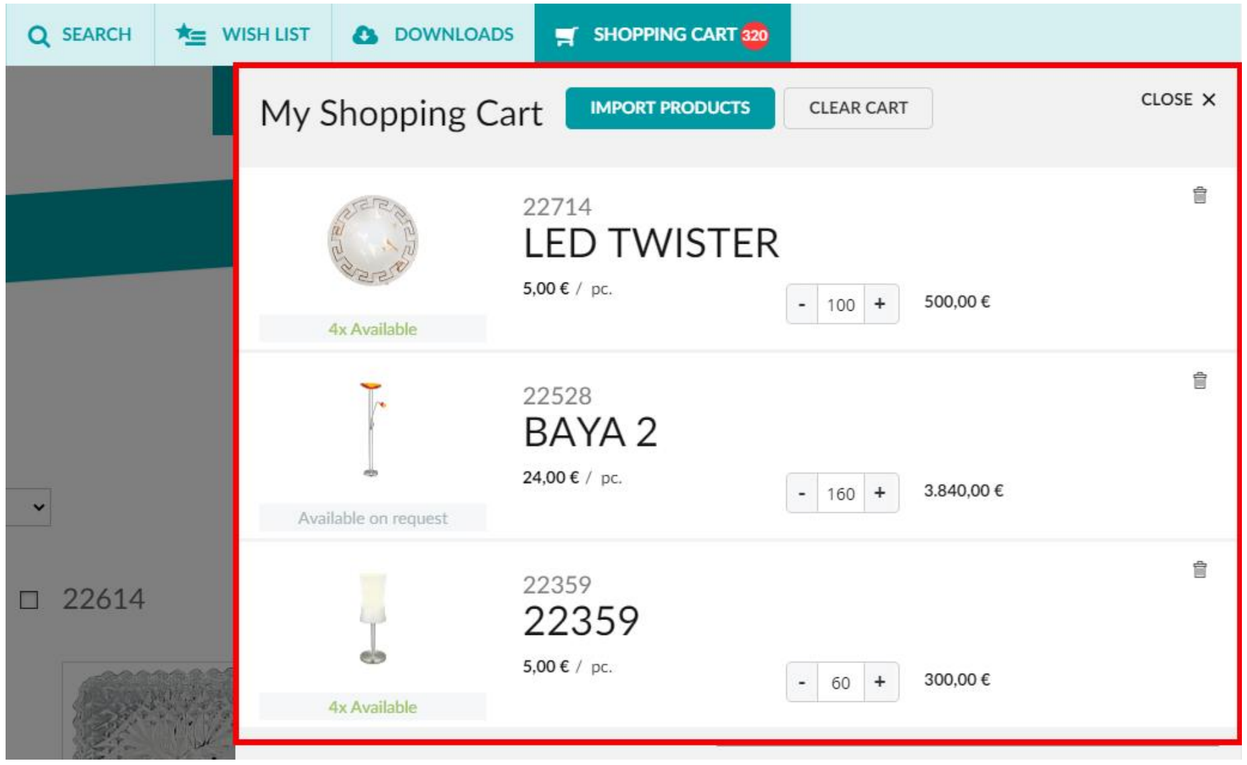


Shopping Cart

The products are reserved for your account when you add them to your shopping cart.

Please delete products and quantities from your shopping card if you don´t need them
(to give other customers the possibility to shop them as well).
Otherwise it will be not available for the other EGLO customers.

Please beware: **The shopping card will be cleared when you log out and each day at 00:00.**

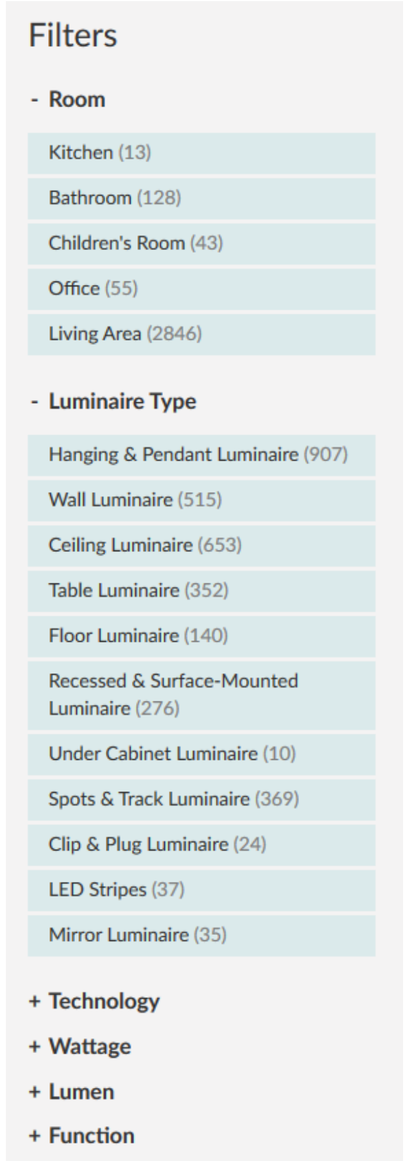


Shopping Function (2)

EGLO
my light | my style

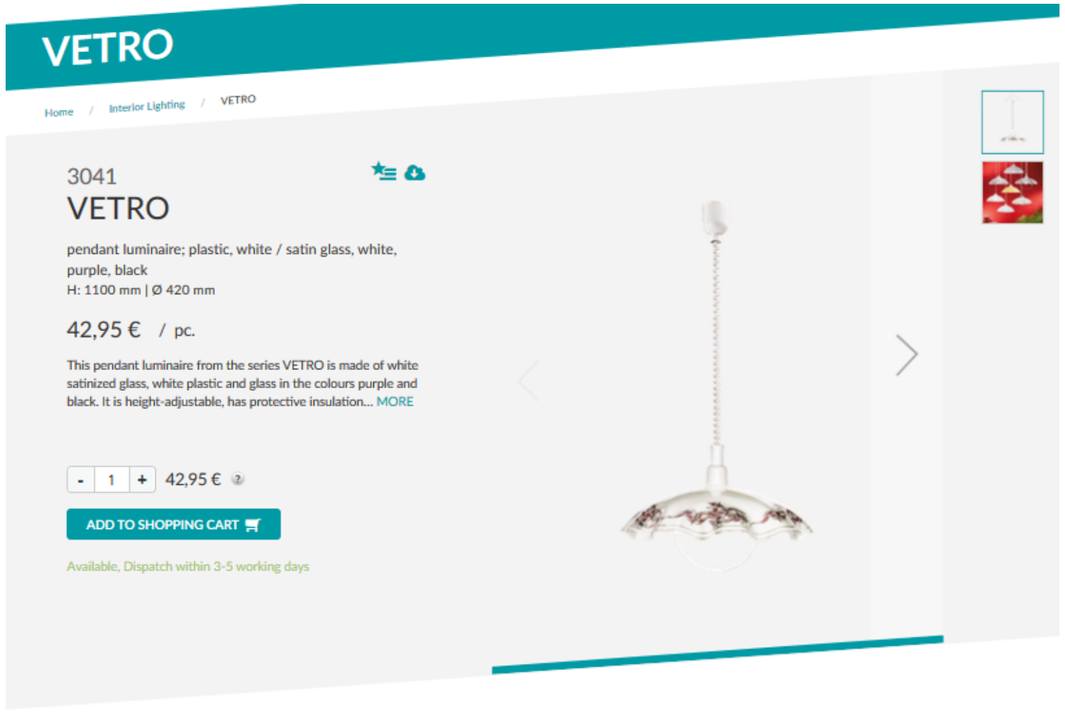
Filters

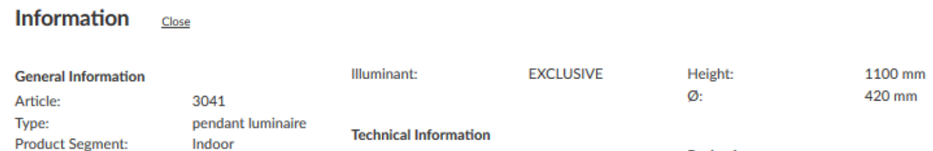
With the help of technical information from PIM all products can be filtered with many different options.



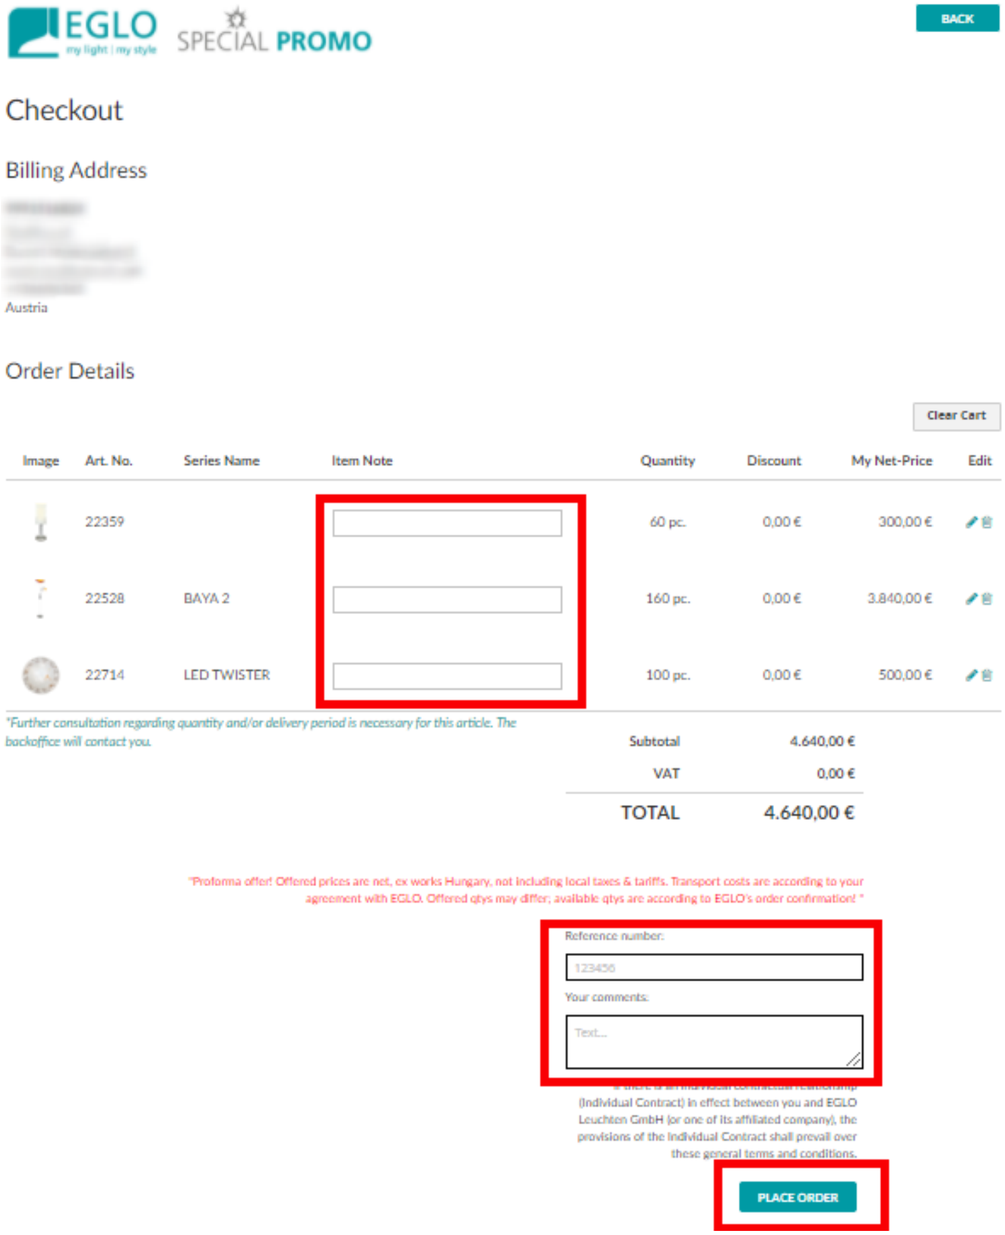
Product Detail Pages

Product Photos and Ambience Photos will be displayed here. If there is an article text it can be shown here. Technical information about the product is placed below the product. At the bottom of the page similar products will be recommended.





Shopping Function (3)



Checkout

Here you have an overview of your order and prices.

You can add here

- Product notes for each product
- Individual reference number for your order (otherwise the system will select one)
- Comments

By clicking on PLACE ORDER your order will be transferred to the special promo department and processed.

Please beware: Once the order is placed there is NO possibility to change or to cancel the order!

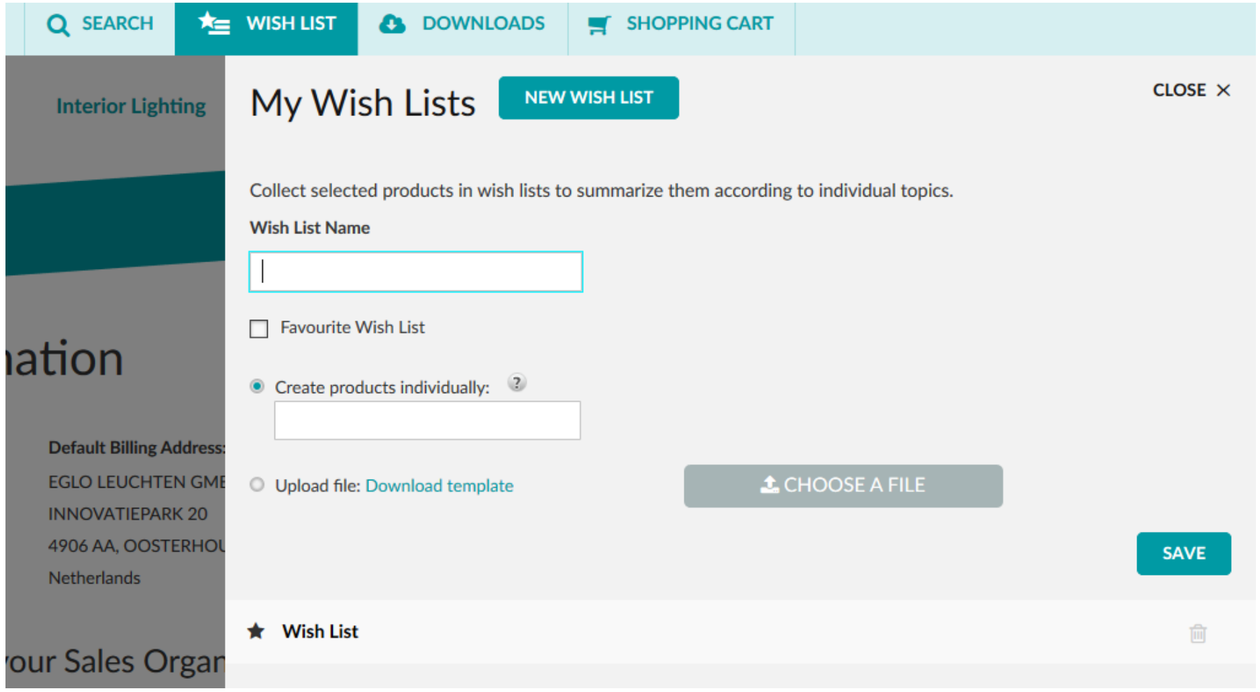
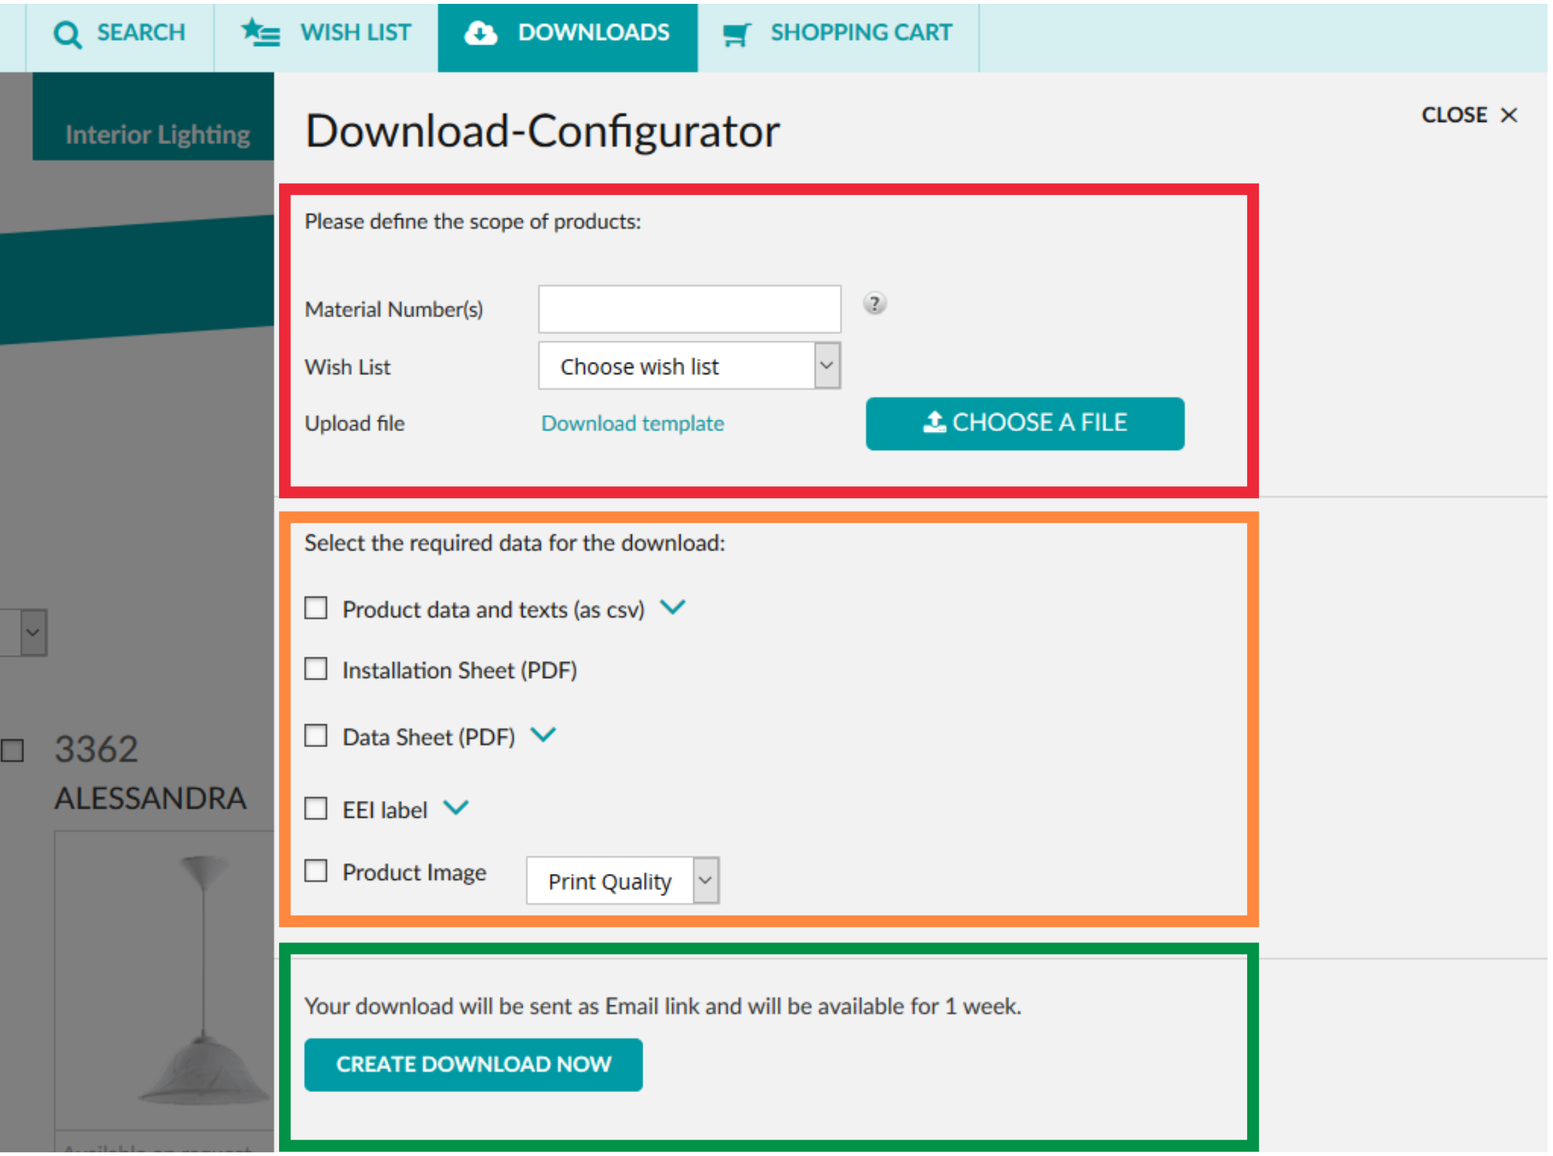
Additional Features

Wish-Lists

With our Wish-List Function it is easy to create article-lists within the portal. The wishlists will be **stored** so that you can edit and use it at a later date.
You can also use wishlists as a **download list** or for **importing to the shopping cart** with one click.



Download Function



Ways to download:

- Fill in Material Number(s) manually
- Choose one of your wishlists
- Upload a template (recommended for a big amount of products)

Available for download:

- Product data csv file
- Installation Sheets
- Data Sheets
- EEI label
- Product images

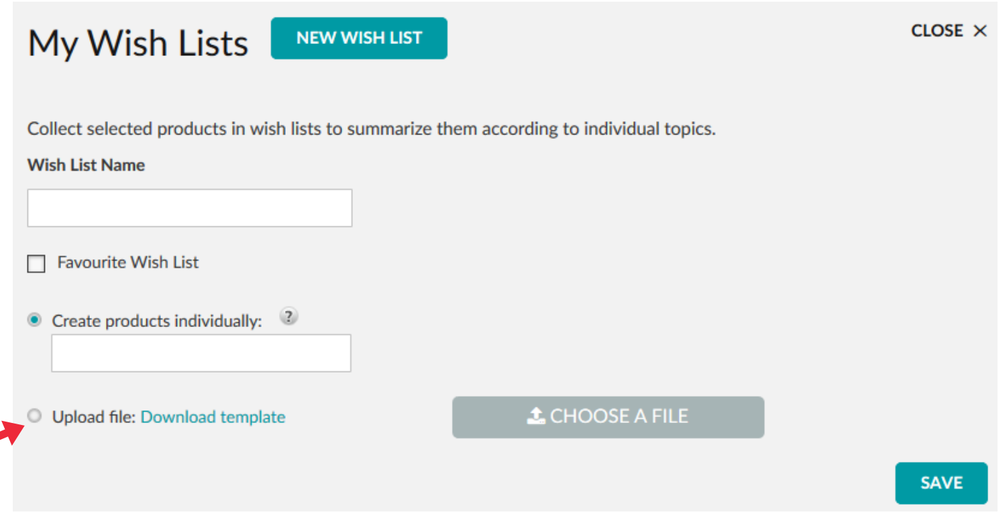
Download process:

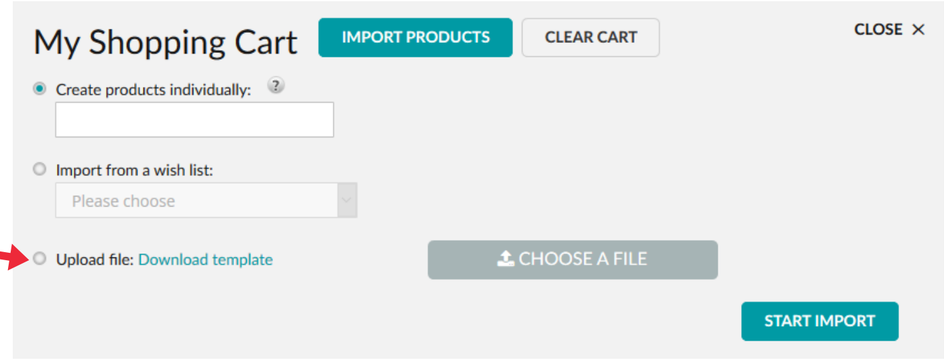
- define scope of products
- select the data you need
- click create download
- receive confirmation mail
- receive download links via mail

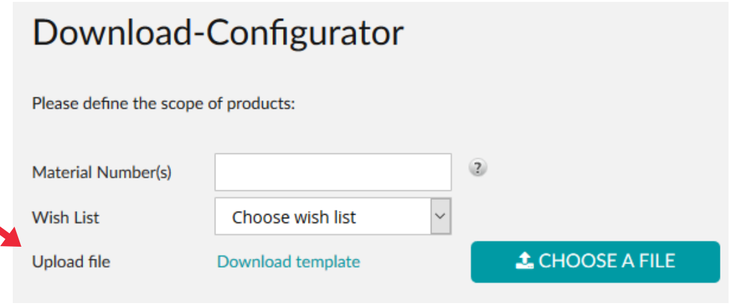
Additional Features

Bulk Imports

When you want to use a big list of products for **creating wishlists, downloads and ordering** he can use our **excel import feature**.
It is a much appreciated feature that helps saving time and energy.







All the best for the Special Promo Sale
